

BEN-17 ACA Reports - Period-To-Date Option

Purpose

The purpose of this job aid is to see an estimate of Average Weekly Hours for Temporary employees who are in the middle of a Measurement Period.

In support of Affordable Care Act rules, Temporary employees' time will be measured over a 12-month look-back period to determine their average weekly hours. Agencies must offer the opportunity to enroll in the High Deductible Health Plan to any employees whose weekly average is calculated to be 30.00 hours or more.

Agencies can run the **ZBNR052 - ACA Reports** Period-To-Date option at any time in order to see what their Temporaries' Average Weekly Hours have been so far in the current Measurement Period. Managers can see if their Temporaries have been working more or less than 30 hours per week.

Initial Screen

There are 4 steps to complete this process.

Tip: Click the **Program documentation** button to see helpful tips and additional details about the options on the initial screen.

	Amy		IMP	01/01/2025		3.57
	Crystal		IMP	01/01/2025		4.14
	Barry		IMP	01/01/2025		0.00
	Sandra		IMP	01/01/2025		3.41
	John		IMP	01/01/2025		0.99
	Anthony		IMP	01/01/2025		3.22

The default report layout sorts the results to show EEs who will be measured sooner at the top of the list.

Tip: You can use the sort and filter buttons to rearrange the results. You can export the data for use in other programs, such as Excel and Word.
