NCFS Report - RPT-FA-017

Report Name: RPT-FA-017 NC Asset Extract Register Report

Report Description: NC Asset Additions for DAC generates the list of all active assets by Asset book that were added in the NCFS system as of report run date.

Report Data Flow: Assets are added to Oracle Cloud Fixed Assets via AP Invoice, mass additions using ADFDI or by manual additions. State/Agency Asset Accountant team will generate this report – 'NC Asset Extract Register Report'. State/Agency will review the output and make changes in Oracle Cloud Fixed Assets system if necessary.
