NCFS Report - RPT-IN-029

Report Name: RPT-IN-029 - NC Inventory Item Sub inventory and Transaction Defaults

Report Description: A BIP report will be created as part of this specification to deliver information concerning all sub-inventory items related to inventory. This report aims to assist agencies in identifying sub-inventory items and transaction defaults. It will include most of the columns found in the Manage Sub inventory and Locators, as well as the Manage Item Transaction Defaults Area.
