By default, the report displays remaining total hours for a twelve-month period on desktop and a three-month period on mobile. The columns representing the current and future months display the number of hours set to age out in that month.

In the below example, Wilma and Tony both have Holiday Compensatory Time. Wilma & Tony have 8 hours remaining for the respective periods; June 2022, August 2022 and October 2022 for an accumulative 12-month total remaining hours equal to 24.00. (Several months with 0.00 hours have been cut from the screen shot for visibility purposes.)

The screenshot shows the 'Manager Comp Time Report' interface. At the top, there is a header bar with a back arrow, a map of North Carolina, and the title 'Manager Comp Time Report'. Below this, there are two input fields: 'Employee Name' and 'Quota Type'. The 'Quota Type' field is highlighted with a green box, and a green arrow points to its dropdown arrow. A dropdown menu is open, showing a list of compensatory time types, each with an unchecked checkbox. Below the dropdown, there is a 'Go' button. The background shows a table with columns for 'Employee Name', 'Quota Type', and 'Total Remaining Hours'. The table contains three rows for 'Wilma S Muhanna' with ID '00000056', showing 'Holiday Comp Time', 'OT Comp Time', and a third row with all zeros.

Employee Name	Quota Type	Total Remaining Hours
Wilma S Muhanna 00000056	Holiday Comp Time	0.00
Wilma S Muhanna 00000056	OT Comp Time	0.00
Wilma S Muhanna 00000056		0.00

By design, the report filters off zero values and delivers only Total Remaining Hours for values greater than zero. To bring in the zero values, deselect the **Hide Records w/Zero Remaining Total Hours** checkbox.

When the Quota Type filter is used to select a quota type outside of the default "ALL", the Hide Records w/Zero Remaining Hours will deselect.
