

OM-27 OM Reports Available in SAP for ERP

Purpose

The purpose of this job aid is to provide a list of SAP ERP reports that are useful in Organizational Management. They are sorted alphabetically by title. The [ERP Report Field Definitions](#) help document defines many of the input fields for ERP reports.

Transaction Code	Report Group	Report Title	Report Description
S_AHR_61016497	Job	Existing Jobs	This report provides an overview of all existing jobs.
S_AHR_61016491	Job	Existing Organizational Units	This report provides an overview of all existing organizational units.
S_AHR_61016498	Job	Job index	This report enables you to display all existing jobs. The list contains all jobs, with information on: • The positions assigned to them • The holders of the positions assigned • The staffing percentage of the assigned positions

Transaction Code	Report Group	Report Title	Report Description
S_AHR_61016495 Job		Org. Structure with Persons	This report displays the persons who belong to each organizational unit. A structure tree appears which displays the organizational structure and the persons who belong to it. The hierarchy levels are shown by corresponding indentations in the tree structure
S_AHR_61016494 Job		Org. Structure with Positions	This report generates an organizational plan that displays the positions assigned to each organizational unit. The plan reports on the hierarchical structure of organizational units and their positions. The organizational unit entered will be interpreted as the 'root' unit of the structure. This means that it is also possible to represent substructures in your company.
S_AHR_61016493 Job		Organizational Structure	This report displays the persons who belong to each organizational unit.
S_AHR_61016492 Job		Staff Functions for Org. Unit	This report displays all organizational units and their staff functions.
S_AHR_61016502 Position		Existing Positions	This report provides an overview of all existing positions.
S_AHR_61018831 Position		Obsolete Positions	This report enables you to display all positions that are flagged as obsolete. An obsolete position is a position that is removed at a particular time. The list contains all obsolete positions by organizational unit, with information on the period in which the position is obsolete staffing status.
S_AHR_61018869 Position		Periods of unoccupied positions	This report displays the periods in which assigned positions are unoccupied per organizational unit.

Transaction Code	Report Group	Report Title	Report Description
S_AHR_61016513	Position	Reporting Structure with Persons	This report lists the subordinate positions for each position selected. All position holders are also displayed. A structure tree appears which displays the subordination and super ordination of positions as well as the assignment of persons to positions. The hierarchy levels are shown by corresponding indentations in the tree structure.
S_AHR_61016512	Position	Reporting Structure Without Persons	This report lists the subordinate positions for each position selected. A structure tree appears which displays the subordination and super ordination of positions. The hierarchy levels are shown by corresponding indentations in the tree structure.
S_AHR_61016503	Position	Staff assignments	This report enables you to display the staff assignments (positions and persons) for one or more organizational units with information on: • The persons assigned to the positions • The chief positions • Staffing status • Actual working times • Planned working times • Staffing percentages • Assignment to employee groups • Assignment to employee subgroups

Transaction Code	Report Group	Report Title	Report Description
			This report displays task descriptions for positions and jobs according to selection criteria. Three percentages are displayed in the list: • Absolute: percentage with which a task or job is related to the position or job (tasks that are not directly related do not have an absolute percentage) • Effective: percentage with which a task or job is to be taken into account in a task description • Overall: effective general percentage of task, if task appears more than once
S_AHR_61016505	Position	Task Description for Positions	
S_AHR_61016509	Position	Vacant/Obsolete Positions	This report enables you to display all positions that are flagged as vacant. A vacant position is a position that has no holder during a particular period and is flagged as vacant.
S_AHR_61016528	General	Structure Display	This report displays a section of the organizational plan according to the initial object and evaluation path entered. A structure tree appears which displays the assignment of organizational objects to one another. The hierarchy levels are shown by corresponding indentations in the tree structure.
S_AHR_61016531	General	Display Infotypes	This report displays an overview of all existing infotypes and their statuses for one or more objects within a plan version. You can maintain the infotypes displayed using parameters. The report can be called from various other reports by choosing 'Object description'.

Transaction Code	Report Group	Report Title	Report Description
S_AHR_61016532	General	Infotype Reporting	This report enables you to report on any infotype. This can be executed structurally or sequentially (in other words, along a structure using an evaluation path according to table T77AW/T778A). The report can also be used for infotypes that you have created yourself.
