

PER-12 First Telephone Number at Work

Purpose

The purpose of this job aid is to explain **IT0105 - Communication; Subtype 20 - First Telephone Number at Work**. This validation will check the data entry format to ensure that telephone numbers are entered correctly.

Example

Image

The screenshot shows a form titled "Communication". It has two rows. The first row is labeled "Type" and has a dropdown menu showing "0020" and a label "First telephone number at work". The second row is labeled "Telephone" and has a text input field containing "919-707-0736" followed by a hyphen and an empty text input field for an extension.

If the number is not entered in the correct format, the following messages will display:

Image

! Enter number ONLY in the format of nnn-xxx-xxxx.

Image

! Extra entry NOT allowed after phone number.

Image

! Enter number ONLY for extension.
