

PER-49 Veteran and Military Status (IT0077)

Purpose

The purpose of this job aid is to explain the IT077 infotype which tracks information on military and veteran status and to monitor utilization of the [Veteran's Preference policy](#).

Supporting North Carolina citizens who have served or are serving their country and state in the United States Armed Forces, Reserves and National Guard and their families is among the highest priorities of government. This commitment is demonstrated through Executive Orders, North Carolina General Statute, human resources policy, and the development of new BI reports. As a result of this commitment, the newly designed infotype (IT0077 - Additional Personal Data) was created with a focus on streamlining information and providing more meaningful veteran and military data options.

Data must be entered as employees enter into state service or as an event that changes their military or veterans status (as confirmed by his or her DD Form 214 Military Discharge paperwork) occurs.

The preference to be accorded eligible veterans shall apply in initial employment, subsequent employment, promotions, reassignments, horizontal transfers and reduction-in-force situations.

The Process

There are 6 steps to complete this process.

Step 1. Processing begins at the **IT0077 - Additional Personal Data** screen.

The infotype includes information on Ethnic/Race Data, Military Status, Veteran Status, Additional Veteran Status, and State Statute. For the purposes of Military and Veteran Status updates, you will need to review the following boxes:

- Military Status
- Veteran Status
- Additional Veteran Status
- State Statute

For instance, an employee may be a Vietnam Era Veteran (Veteran Status box) as well as a Retired Veteran (Additional Veteran Status box).

Information: In the Additional Veteran Status box, one selection must be checked, but not both.
