

TM-50 PA61 Quota Adjustments

Purpose

The purpose of this Business Process Procedure is to explain how to manually manage adjustments to an employee's quota in the Integrated HR-Payroll System.

Trigger

There is a need to manually manage adjustments to an employee's quotas.

Business Process Procedure Overview

The Integrated HR-Payroll System automatically manages an employee's accruals of various quotas, including Sick, Vacation, Community Service and Military leave (if applicable). The Integrated HR-Payroll System also will systematically manage deductions to these quotas. There are only a few special circumstances that require manual adjustments to an employee's quota balances. The Quota Corrections infotype (2013) is used to manage adjustments to an employee's quotas.

The following scenarios require manual quota adjustments via IT2013:

- An employee who designates his or her Community Service Leave for tutoring at the beginning of the calendar year should have their quota 65 balance of 24 hours reduced to zero and be given 36 hours of Community Service Leave - Tutoring in quota 66.

- An employee who is a member of the military reserve and joins the State after 10/1 accrual date of Military Leave (Training) may need his or her quota created with an IT2013 record if the reservist status is not known at the time of hire.
- An employee requesting and being approved for Advanced Vacation or Advanced Sick Leave - The advanced leave process is detailed in the BPP instructions: PA61 - Advanced Leave.
- Returning unused Received Shared Leave to the donor should be done with a quota correction record.
- A valid discrepancy has been found in an employee's quota - Upon management approval, the quota should be adjusted as necessary.

All subtypes of IT2013 are relevant for quota adjustments.

In this BPP you will learn to:

- Select the effective date of the quota adjustment
- Provide the number of hours to be added or removed
- Choose from two selections for an increase or decrease adjustment to an employee quota
- Adjust a quota balance

Access Transaction

Via Transaction Code: PA61

Procedure

Image

There are 17 steps in this process.

Step 1. Update the **Command field** using transaction code **PA61**.

Step 2. Click the **Enter** button.

Step 5. Update the **Infotype** field (Example: 2013).

Step 6. Click **Enter**.

Only one IT2013 record should be created for each subtype for the same From date. Multiple records can cause Time Evaluation to error out for the employee.

Step 7. Update the **Subtype** field (Example: 10)

Enter the subtype corresponding to the quota for adjustment. Select the STy field matchcode to view a list of available quotas. In the example provided, the employee's Vacation quota (subtype 10) is selected to manage the employee's additional vacation entitlement.

Step 9. Update the **Quota Number** field (Example 10)

Step 10. Click **Enter**.

Step 11. Select one of the first two radio button options:

**Increase
generated
entitlement**

Indicates that hours
should be added to
quota (default option)

This option adds the hours specified to the employee's existing quota or creates the quota with the specified hours if the employee does not have a current balance for the selected quota.

**Decrease
generated
entitlement**

Indicates that hours
should be subtracted
from quota

This option subtracts the hours specified from the employee's existing quota.

**Replace
generated
entitlement**

**DO NOT SELECT THIS
OPTION!**

DO NOT USE THIS OPTION! This option was intended to replace the employee's quota accrual generated in Time Evaluation on the From Date. The Integrated HR-Payroll System staff advise against trying to use this option.

Step 12. Transfer time 'Transfer' field system defaults to **“Do not change transfer time.” Do not change the selection.**

X Transfer collected entitlement immediately

Y Only transfer quota correction immediately

Step 13. On the toolbar at the top of the screen, click **Menu > Edit > Maintain text.**

Image

Step 14. Type an appropriate message for the record.

Image

Text

Menu | [Dropdown] | [Save] [Undo] [Redo] [Close]

[Cut] [Copy] [Paste] | [Home] [End] | [Previous] [Next]

Add note here.

Step 15. Click the **Save (Ctrl+S)** button to save the text to the record.

The Maintain Text icon will display on the infotype.

Start	10/22/2025				

Absence quota type  /acation Leave

Step 16. Click the **Save (Ctrl+S)** button to save the Quota Correction record.

The Quota Correction record will be processed during the nightly Time Evaluation process. The adjusted quota should then be reflected in the employee's quota balances the following day. To verify the adjustment processed correctly, access Quota Overview (transaction PT50) and view the employee's quota balances as detailed in PT50 transaction. For more detailed instructions for transaction PT50, refer to the BPP instructions: PT50 - Quota Overview.

Step 17. Click the **Back (F3)** button.

The system task is complete.
