

B0096 Supervisor Relationships

Purpose

The purpose of this Report Description is to list supervisor positions, and the positions and employees who report to them, for the organizational unit and calendar month/year selected.

Report Description

This report lists supervisor positions, and the positions and employees who report to them, for the organizational unit and calendar month/year selected. The employee information, including organizational unit, name, position, job, and salary is also included if the position is filled.

Report Location

OM: Position Data

Report Uses

- This report can be used to verify supervisor and employee relationships for positions assigned to the supervising position.
- This report can be used to determine if the span of control for an organizational unit is consistent with the standard set for that unit.

How to Generate This Report

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the [Web Intelligence Prompt List](#) on the [OSC website](#).

The Mandatory prompts for this report are:

- Organizational Unit
- Calendar Month/Year (Single Value, Mandatory)

This report can also be further limited by utilizing the Optional prompts to further limiting the amount of data that retrieved into the body of the report. Optional prompts are indicated as option in parentheses beside the prompt.

The Optional prompts are:

- Supv Position(s) - (Optional)
- Supv Employee(s) PersNo. - (Optional)

Exclusion prompts exclude specified data by default while allowing customers the flexibility of changing them when necessary. Exclusion prompts are identified by the term Exclude followed by the prompt.

The Exclusion prompts are:

- Exclude Employee Subgroup (Contractors)

Initial Layout

The report is generated with a list of positions within the org unit selected. The supervisor's information displays on the left side of the report, with the positions that report to it listed to the right. This is a sample row from the report, which shows the columns available on the base report:

Image

B0096: Supervisor Relationships as of JUL 2023

Supv Name	Supv Employee	Supv Position	Supv Position Desc	Supv Job	Supv Job Desc	Employee Org Unit	Employee Org Unit Desc
Test User 1	1111111	60014907	Secretary Of Transportation	30005323	Secretary Of Transportation	20000017	DOT SECRETARY'S OFFICE

Report continued:

Image

Test User	111111	65023250	Boards & Commissions Member	32000829	Boards & Commissions Member	1.00	215,697	1
Supv Name - Test User 1						1.00		

Available Objects

This is a list of the available objects that can be added to the report, from the Document Dictionary once in the Design mode:

Dimensions

- Employee
- Employee Group
- Employee Name
- Employee Subgroup
- Ethnic Origin
- Gender
- Job
- Job Pay Area
- Job Pay Group
- Job Pay Level
- Job Pay Type
- Org Unit
- Pos City
- Pos County
- Pos Pay Area
- Pos Pay Group
- Pos Pay Level
- Pos Pay Type
- Pos Personnel Area
- Position
- State
- Supv Employee
- Supv Ethnic Origin
- Supv Gender
- Supv Job
- Supv Name
- Supv Pos City

- Supv Position

Measures

- Employee Salary
- Position Count
- Supv Salary

Variables

- Prompt Response Cal Mth/Yr
- Prompt Response Exclude Employee Subgroup
- Prompt Response Organizational Unit
- Prompt Response Supv Employee(s)
- Prompt Response Supv Position(s)

Special Report Considerations/Features

- Vacant positions are identified by an unassigned employee or supervising employee (#) for the position.
- Positions assigned to the Contractor employee subgroup are excluded from this report by default. This can be cleared in the prompt screen and show the contractors in the report.
- **Field/Home Based** indicator is available from Position attributes (expanded list) in Available Objects.
- Report shows **Span of Control of a supervisor or a higher position** when the '**Span of Control of a Position (Key)**' is dragged from Available Objects to the report from '**Supv Position**'

Image

- '**Span of Control of a Position (Key)**' dragged from '**Position**' master data attributes shows the **subordinate position's Span of Control**.
- Span of Control count includes Contractors at the time of display of Span of Control from the Supervisor position or Subordinate Position even if Contractors are excluded in the report prompt screen.
- Positions **60013824** (TS), **60088920** (TS Ghost Supv) and **65002381** (National Guard) have been or still are used by Temporary Solutions when another supervisor is not identified. These **positions are not included in the Span of Control calculation** as they do not represent supervisors how they are intended by the B002 relationship on IT1001. Should these positions start being used as supervisors in the traditional sense, they will not be included in the Span of Control calculation unless a program change is made.
- '**Supervising (Key)**' flag specifies whether a position is a supervising position (Y) or not (N).

- The B0096 report was designed so row values are not duplicated on breaks when the report is first displayed. There are breaks on several objects on this report, so the repeating supervisor and organizational unit information will not be duplicated on each row. The following instructions will show how to repeat the values on each row of the report. Once the report is set up to repeat the values, you can then export the report to Excel, and the values will be repeated on the spreadsheet as well. There are 10 steps to complete this process.

Step 1: Run the B0096 report for the desired organization unit(s) and date, and any other values needed for the optional prompts.

Step 2: Once in the report, select Design from the display drop down menu.

Image

The screenshot shows the B0096 Supervisor Relation... report interface. The 'Display' dropdown menu is open, showing options: Reading (selected), Design, Structure, and Data. A red arrow points to the 'Design' option. The report table below shows columns for Supervisor and Employee information, with one data row for 'Test User 1'.

Supv Name	Supv Employee	Supv Position	Supv Position Desc	Supv Job	Supv Job Desc	Employee Org Unit	Employee Org Unit Desc
Test User 1	1111111	60014907	Secretary Of Transportation	30005323	Secretary Of Transportation	20000017	DOT SECRETARY'S OFFICE

Step 3: Right click on the desired row.

Step 4: Select Data.

Step 5: Select Edit Break.

Image

The screenshot shows a software interface with a data table and a context menu. The table has columns: Supv Name, Position, Supv Position Desc, Supv Job, Supv Job Desc, Employee Org Unit, and Employee Name. A context menu is open over the 'Supv Name' column, with 'Data' highlighted. A sub-menu is open for 'Data', with 'Edit Break' highlighted.

Supv Name	Position	Supv Position Desc	Supv Job	Supv Job Desc	Employee Org Unit	Employee Name
#			32002404	Public Information Manager	20001694	DO & E

Step 6: Click on “Display the break panel” icon.

Step 7: Click on the Settings icon next to Supv Name in the Breaks on Lines panel.

B0096: Supervisor Relationships as of AUG 2024

Supv Employee	Supv Position	Supv Position Desc	Supv Job	Supv Job Desc
#	60088997	State Controller	#	Not assigned
	65029696	Applications Systems Manager II	31004030	Applications Systems Manager II
2490024	65029694	IT Project Manager II	31004060	IT Project Manager II

Breaks on Lines (8)

- Supv Name
- Supv Employee - Supervising Em...
- Supv Position - Supervising Positi...
- Supv Position
- Supv Job - Key
- Supv Job
- Org Unit - Key

Dimensions

- Employee
- Employee Group
- Employee Name
- Employee Subgroup
- Ethnic Origin
- Gender
- Job
- Job Pay Area
- Job Pay Group
- Job Pay Level
- Job Pay Type
- Org Unit

Step 8: Scroll down to Duplicate values and change drop down option from “Repeat first on new page” to “Display All” and click OK.

Step 9: Repeat steps (7) and (8) for each of the objects listed under Breaks on Lines panel, so all values will repeat.

Step 10: All values will be displayed in the report. When the report is exported to Excel, the duplicate values are displayed.

Image

The screenshot shows a report design interface. On the left, a table titled "Supervisor Relationships as of AUG 2024" is displayed. The table has five columns: "Supv Employee", "Supv Position", "Supv Position Desc", "Supv Job", and "Supv Job Desc". The data is as follows:

Supv Employee	Supv Position	Supv Position Desc	Supv Job	Supv Job Desc
#	60088997	State Controller	#	Not assigned
	65029696	Applications Systems Manager II	31004030	Applications Systems Manager II
2490024	65029694	IT Project Manager II	31004060	IT Project Manager II

On the right, a configuration dialog box is open. It has the following options:

- ☒ Enable fold/unfold
- ☐ Value based break (with a "Values..." button)
- ☒ Duplicate values
- A dropdown menu set to "Display all" (highlighted with a black box)
- Page layout
- ☐ Start on new page
- "OK" and "Cancel" buttons (the "OK" button is highlighted with a black box)

The background shows a sidebar with a "Design" tab and a list of dimensions including Employee, Employee Group, Employee Name, Employee Subgroup, Ethnic Origin, Gender, Job, Job Pay Area, Job Pay Group, Job Pay Level, Job Pay Type, and Org Unit.

If the report will need to be exported to Excel on a regular basis, you may save the report to your "My favorites" folder with these changes in place. Once it is saved with these changes, the reformatted report will be available to you when you need it, and you won't have to go through these reformatting steps again.
