

B0194 Positions Vacant - Filled

Purpose

The purpose of this report is to describe and explain how to generate the Positions Vacant-Filled report in the Integrated HR-Payroll System.

Report Description

The Positions Vacant-Filled Report is a dashboard that shows the percent of positions filled vs vacant, the count of filled versus vacant positions by Job Family and the count of vacant positions by number of days vacant. Filters can be applied to show the Vacant-Filled metrics by several different dimensions including Funding Source. The total number of positions and total number of employees may differ in the event of multiple positions per employee or multiple employees per position. This report shows position counts over a single month in time.

Report Location

OM: Vacant-Filled Position Analysis

Report Uses

Analyze vacancy metrics to spot potential problem areas and assist in determining a course of action to help with recruitment/staffing.

For example:

- Are there staffing challenges with any specific Divisions?
- Are there particular types of jobs that are consistently showing higher vacancy rates?
- How long are positions remaining vacant?

How to Generate This Report

There are no prompts required to generate this dashboard. Click on the report name “**B0194: Positions Vacant-Filled**” in the **OM: Vacant-Filled Position Analysis** folder, and the report will execute.

The dashboard is generated with data contained in multiple tabs.

The initial rendering defaults to showing data specific to the agency OrgUnits for which the user has access.

Overview Tab

Below is a sample of the dashboard charts under the Overview tab:

Image

There are four data components displayed in this tab.

- Text component showing Filled positions, Vacant positions, and Total positions.

Image

Filled
64,169
Vacant
16,228
Total
80,397

- Pie Chart showing percent Filled vs percent Vacant metrics.

Image

- Vertical Bar Chart showing count of Vacant positions grouped by Number of Days Vacant.

Image

- Horizontal Bar Chart showing Vacant vs Filled metrics by Job Family.

Image

By Job Family

Each chart contains an icon in the upper right corner to enable expansion of the chart to full-screen view.

■ Filled Positions ■ Vacant Positions

Location Tab

This tab shows a heat map with vacancy metrics correlated to counties in North Carolina.

Image

- The initial view defaults to rendering the map based on the Vacant % metric. There are radio buttons at the top to toggle the map view to render based on the Vacant Count metric.
- The upper left corner has the zoom controls.

Analysis Application Tab

The Analysis Application tab is an interactive interface to manipulate the data table on the workspace to customize this data view.
