AP-20 Manage BOA PCard Invoices

Purpose

The purpose of this Quick Reference Guide (**QRG**) is to provide a step-by-step explanation of how to manage Bank of America (BOA) PCard Invoices in the North Carolina Financial System (**NCFS**).

Introduction and Overview

This QRG covers how to manage BOA PCard invoices in NCFS.

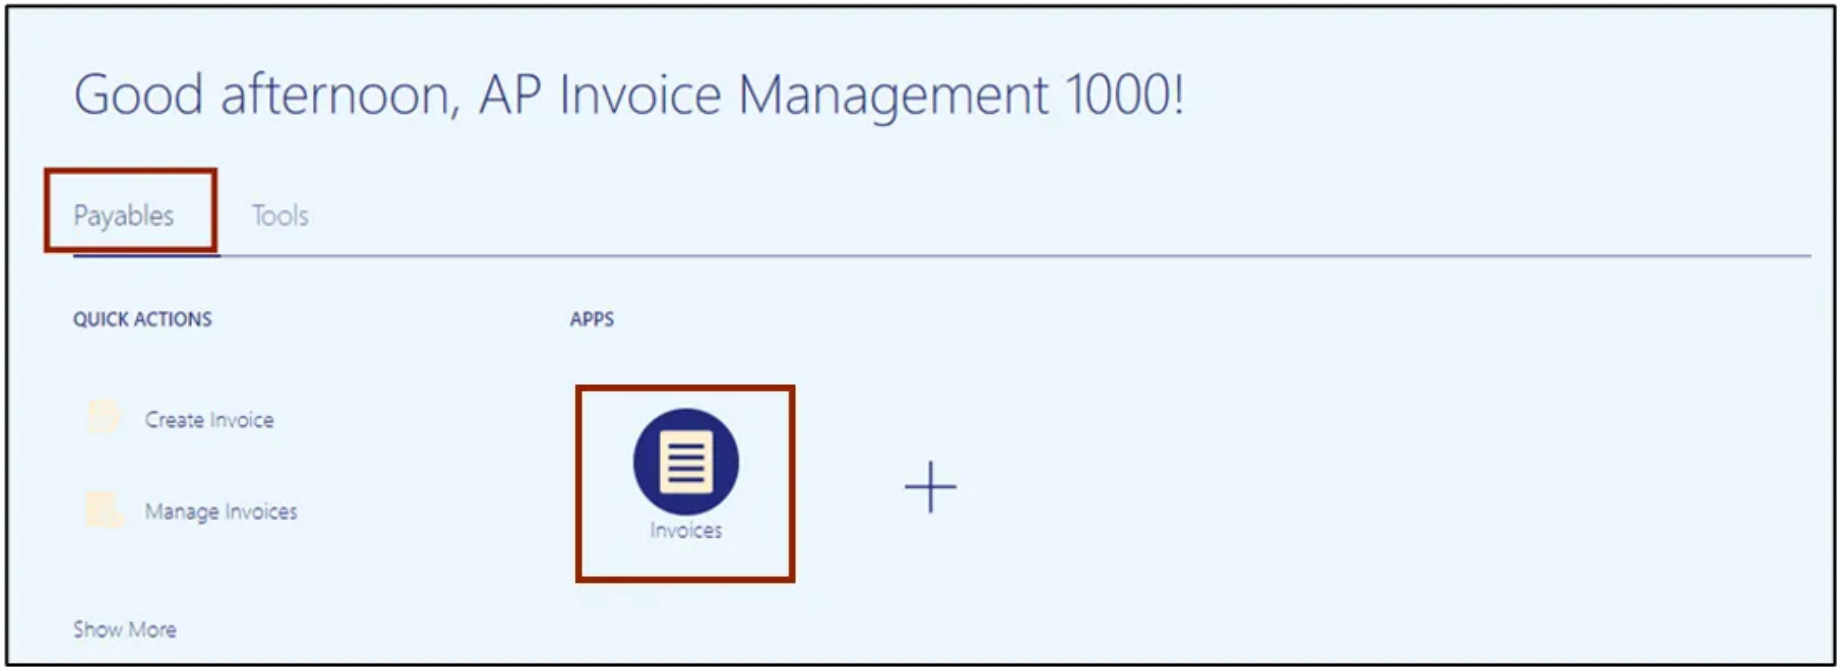

Manage BOA PCard Invoices

To manage BOA PCard in NCFS, please follow the steps below. There are 15 steps to complete this process.

Step 1. Log in to the NCFS portal with your credentials to access the system.

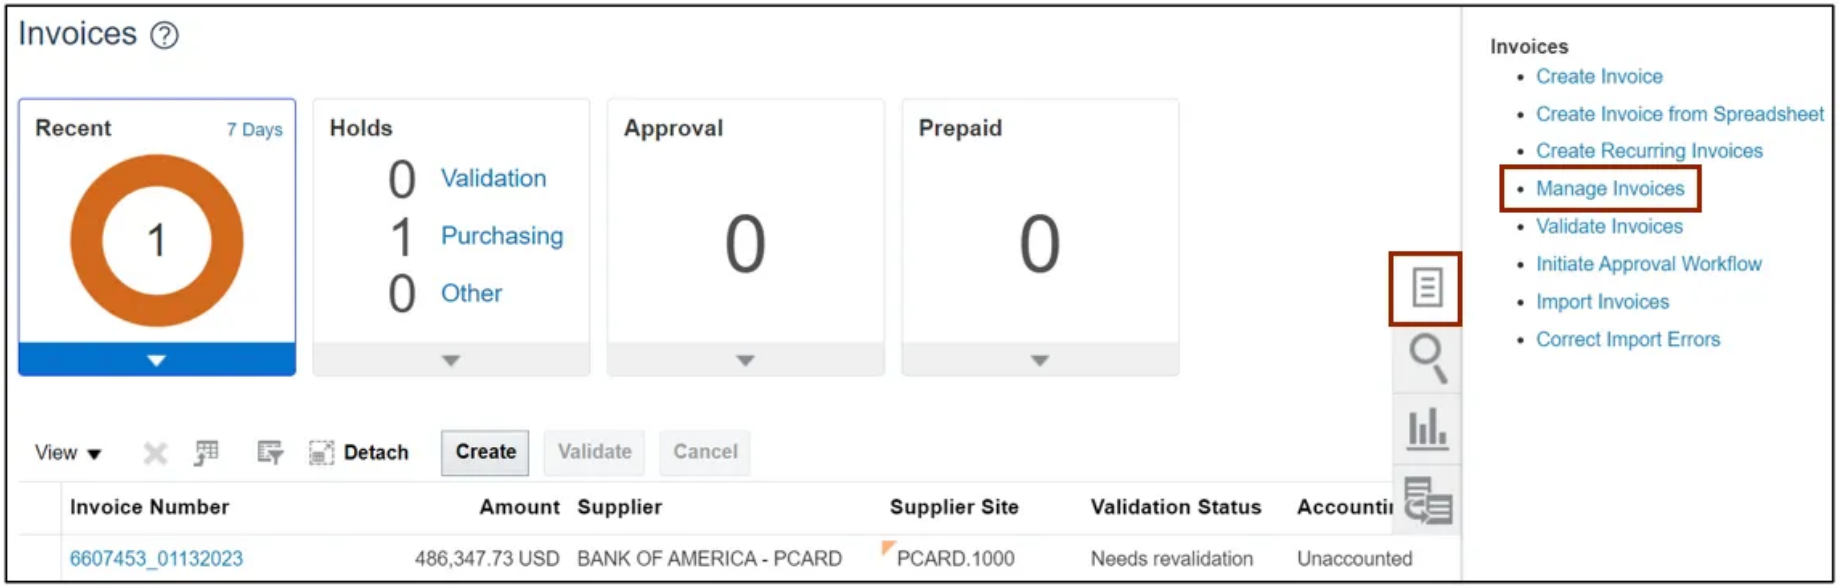

Step 2. On the **Home** page, under the **Payables** tab, click the **Invoices** app.

Step 8. On the *Manage Distributions* window, select **All** from the *Invoice Line* drop-down choice list. Verify or change any needed invoice line distributions details for correct account distribution. If necessary, you can export them to an Excel spreadsheet by selecting the **Export to Excel** icon to assist in verification.

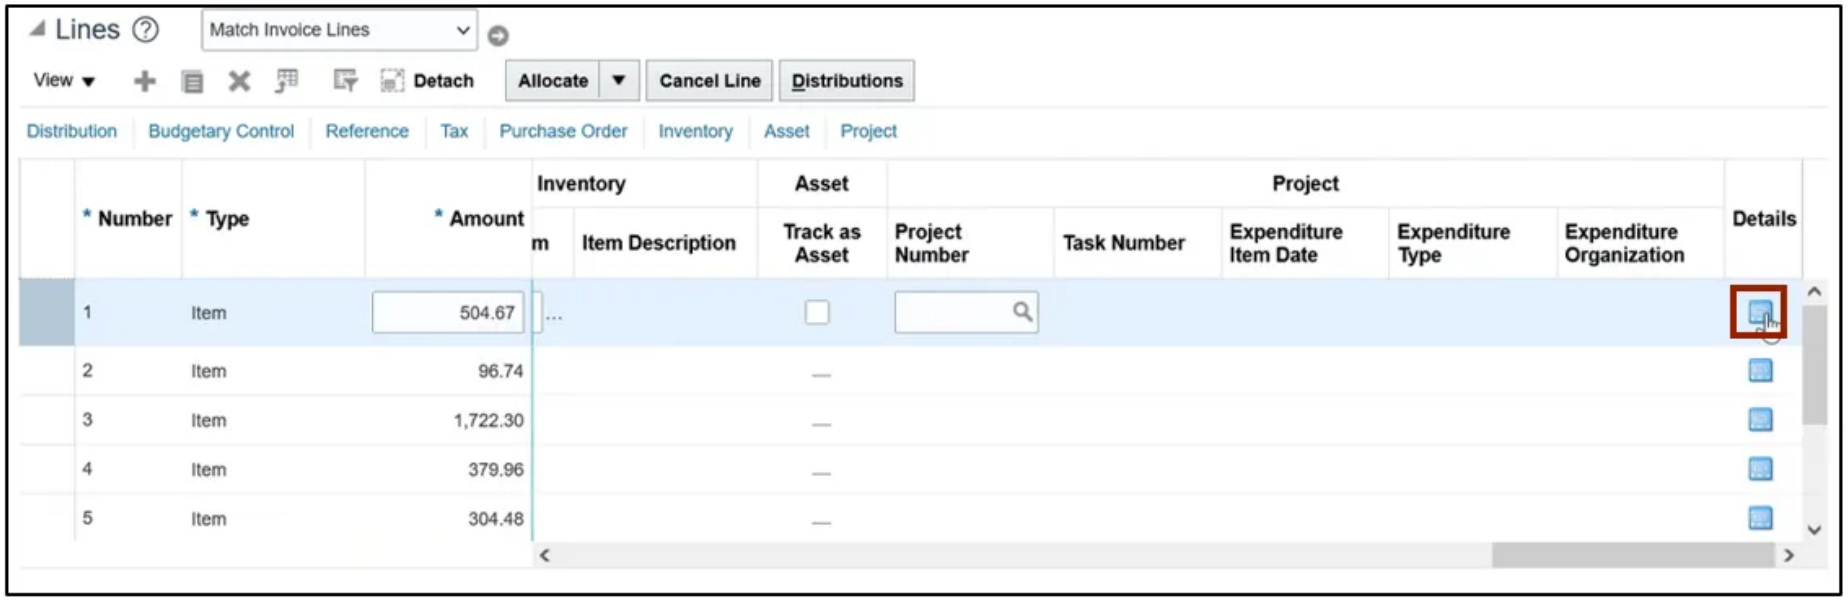

After verifying or changing the invoice line distributions, click the **Save and Close** button.

Step 10. The *Update Additional Information* pop-up appears. Validate and click the **OK** button.

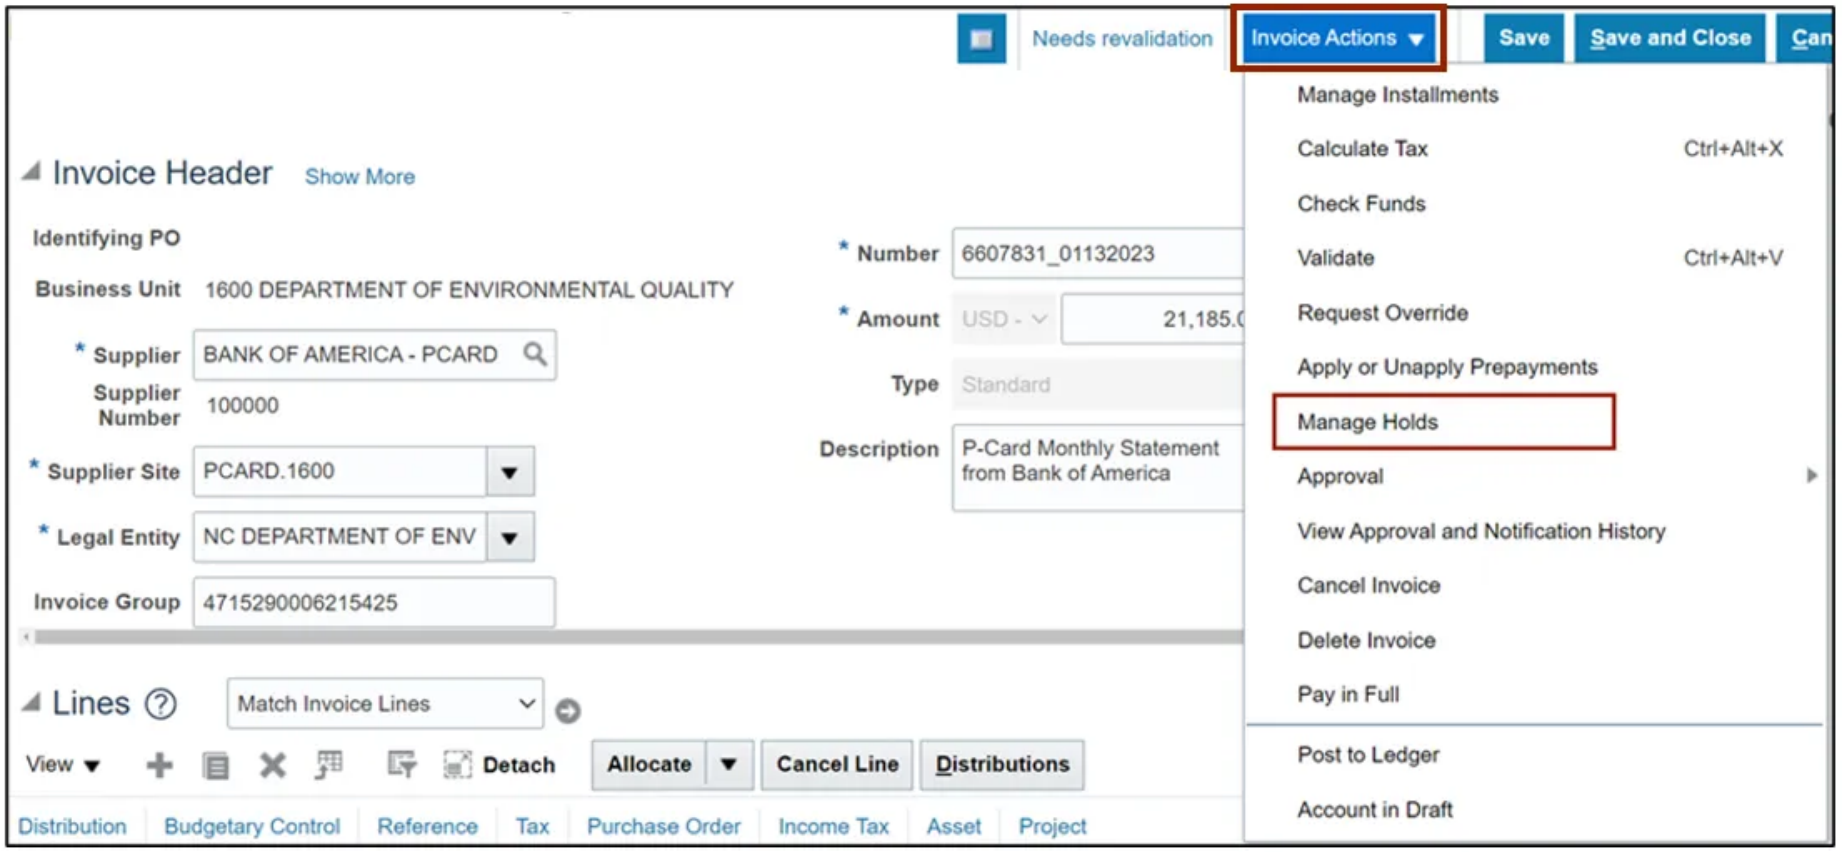

Image

Note: Steps 11, 12 and 13 are not applicable to the Invoice Management User as it is **not a function of AP invoice management**. This is performed by the **AP Invoice Release Hold role**.

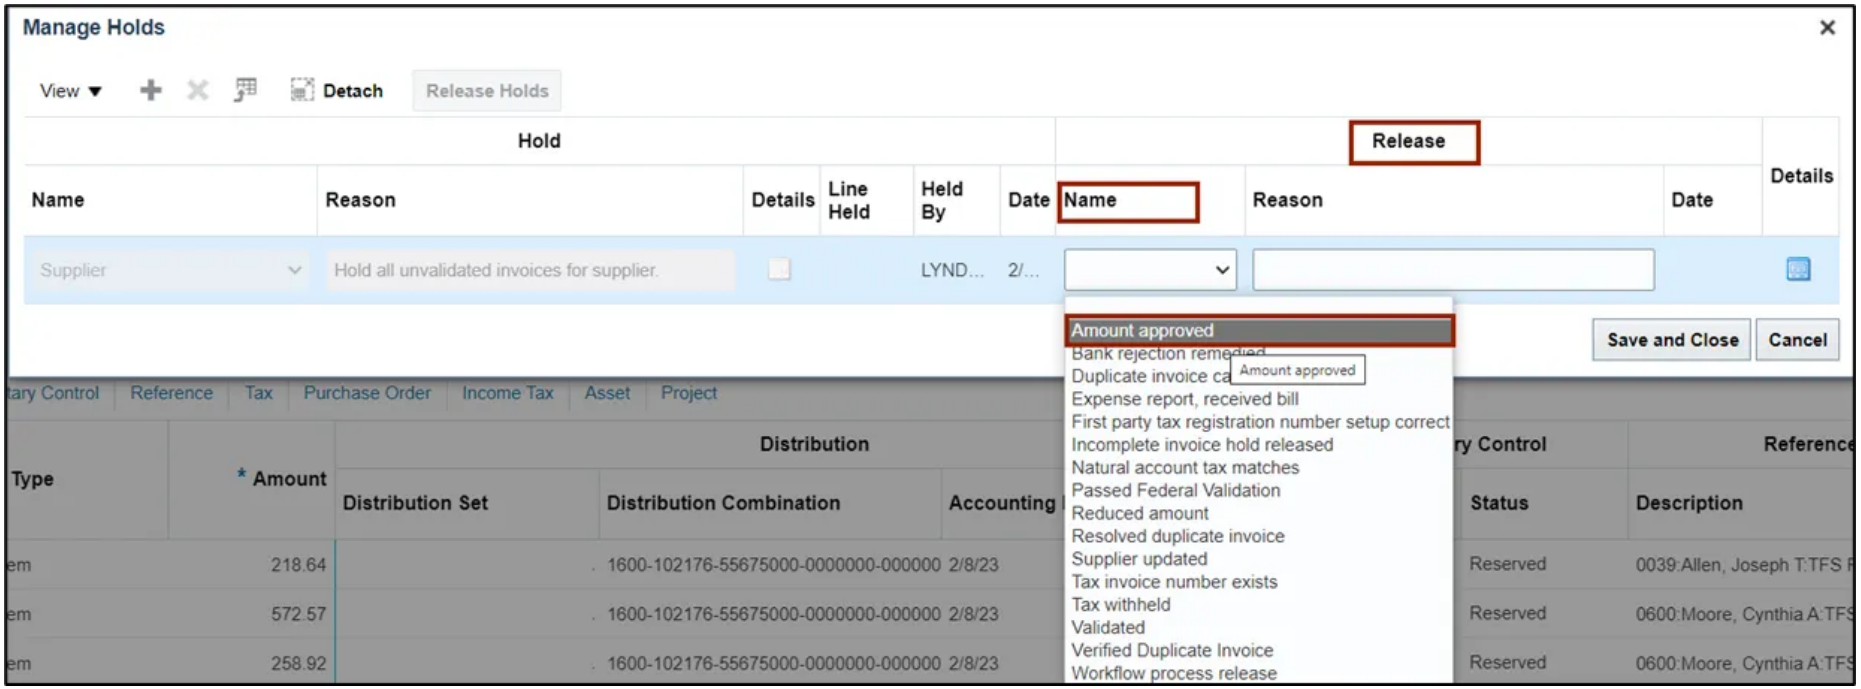

Step 11. Scroll back to the top of the page. From the Invoice Actions drop-down choice list, select **Manage Holds**.

Image

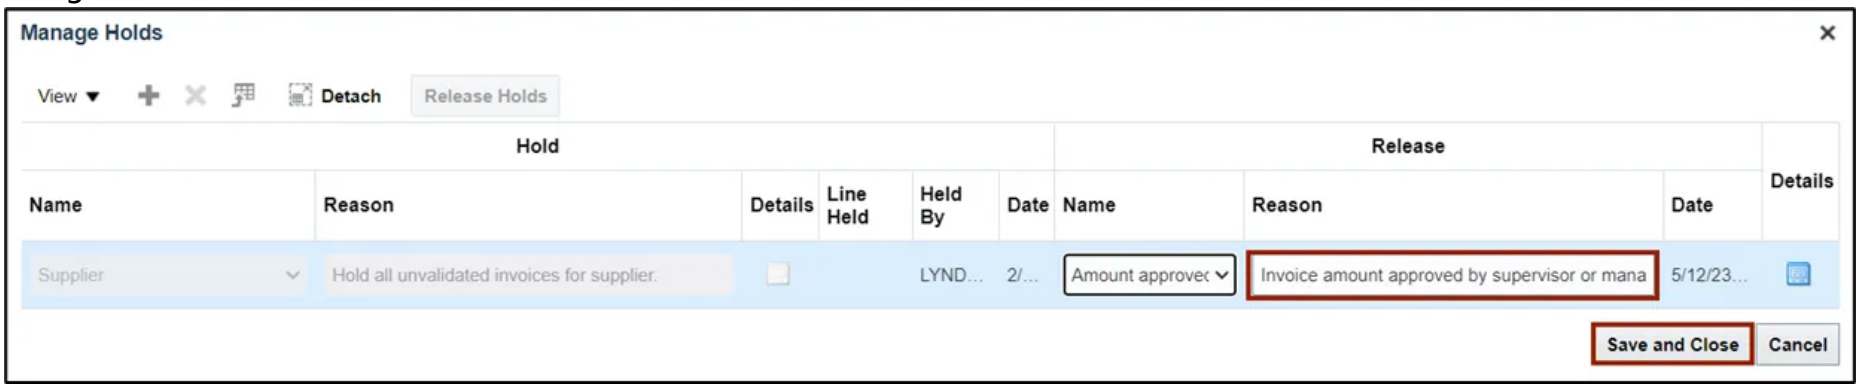

Step 12. On the *Manage Holds* pop-up window, under the ***Release*** section select the appropriate option from the *Name* drop-down choice list.

Image

Step 13. Then the **Release Reason** field is auto populated. Click the **Save and Close** button

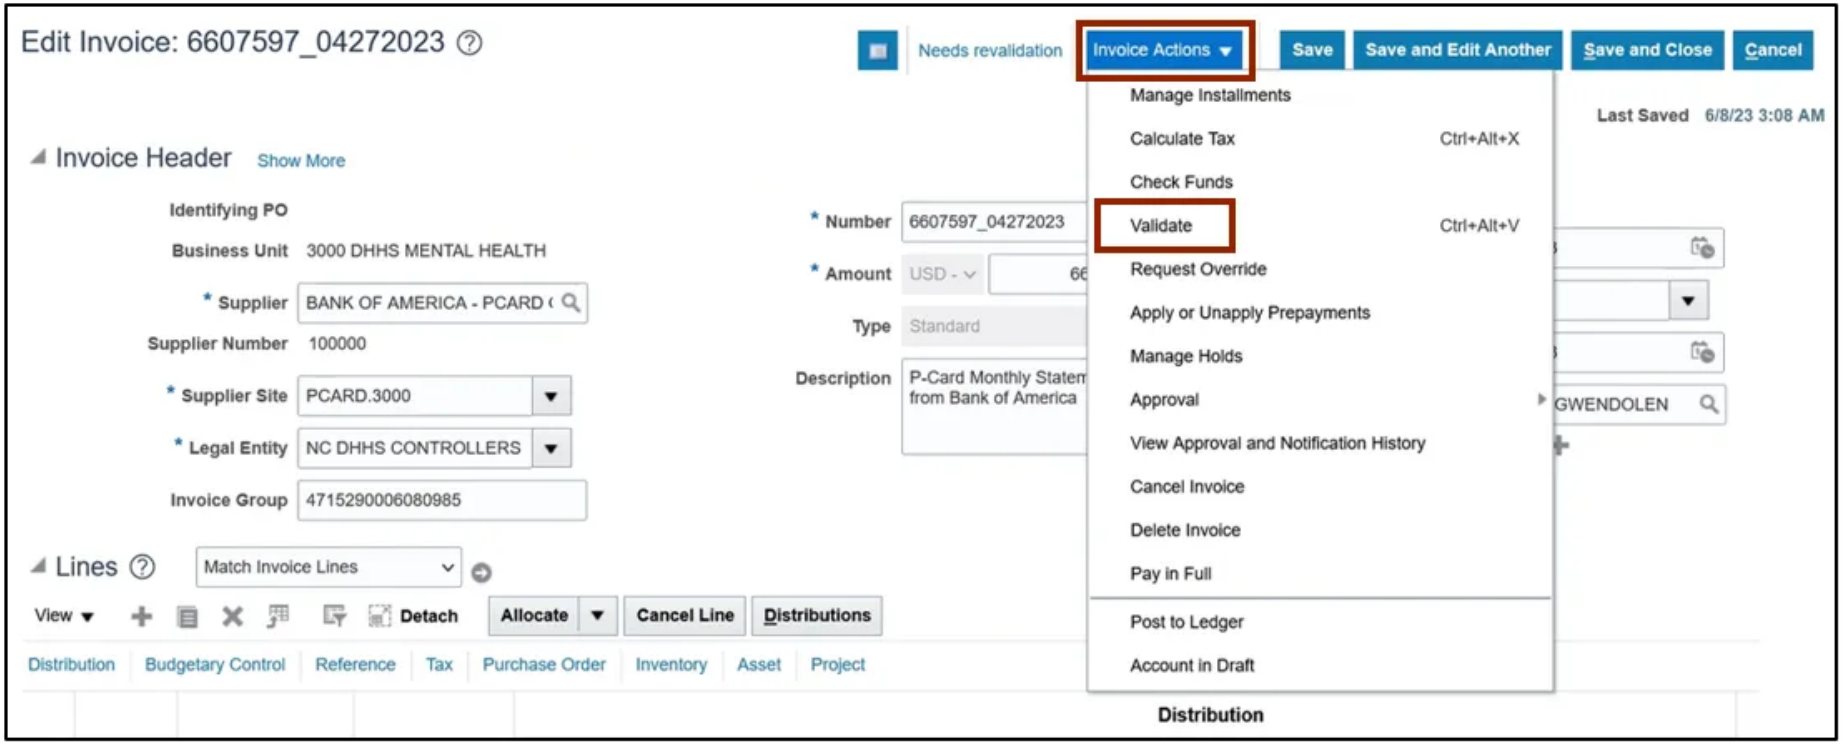

Image

Note: Steps 14 and 15 are performed by the **AP Invoice Management User**.

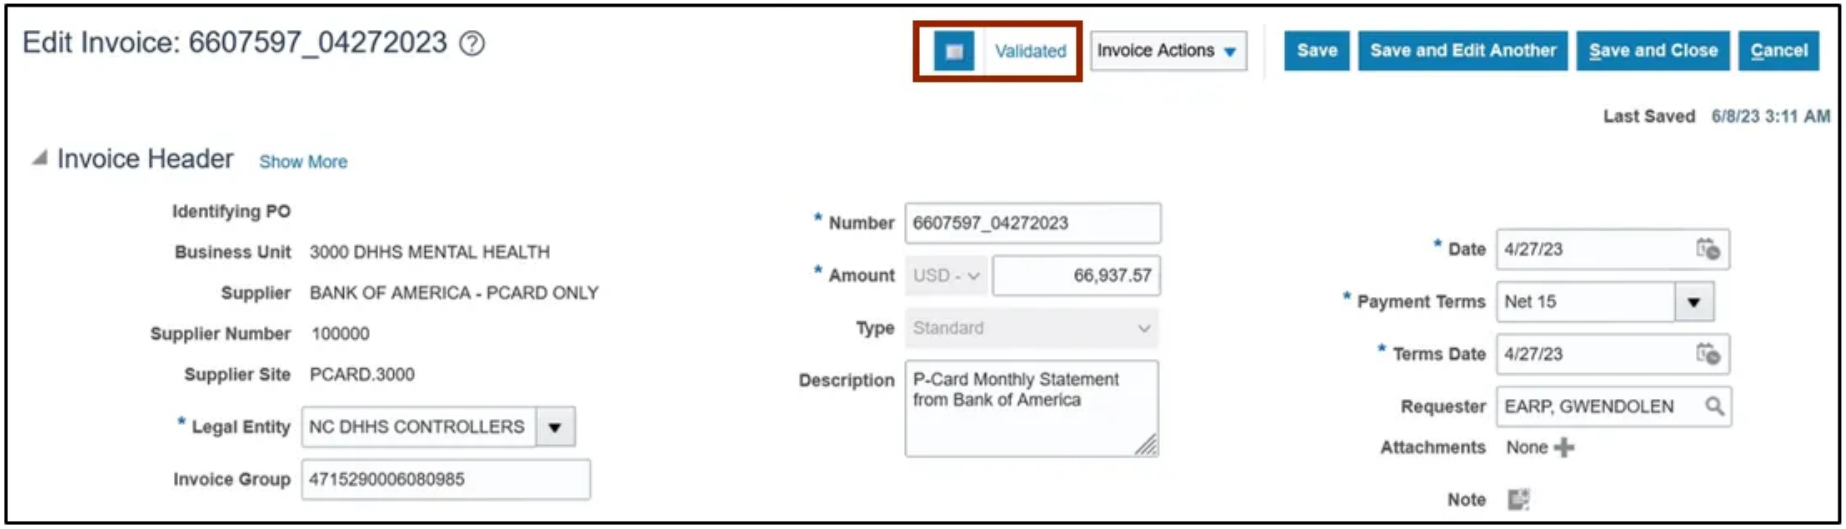

Step 14. After the hold is released by the AP Release Hold user, navigate to the invoice and click the *Invoice Actions* drop-down choice list and select **Validate**.

Image

Step 15. On the **Edit Invoice** page, the invoice status changes from **Needs Revalidation** to **Validated**.
