

BOBJ KNOWN ISSUES

Adding new data elements using Assign Data in a Cross Tab report

Description:

While adding a new data element to a Cross Tab report, the report formatting changes when you add the data element by accessing the table context menu through 'Assign Data' in the table. When you drag and drop a dimension column to the cross-tab report from the available objects, this tabular format report changes especially on the total columns at the right end do not occur.

Sample Report:

B0201 report in folder location PT: Leave Quotas

How to identify the known issue:

Prompts	€ ×
Prompts Summary * Organizational Unit * Calendar Day (Single Value, Mandatory) ✓ Employee(s) PersNo (Optional) ✓ Exclude Employee Subgroup (Contractors) G1	Organi Mandatory To see the Optional Exclusion In Control of the Optional Control of the Optional Cont
* Required prompts	OK Cancel

- 1. Run the report B0201 or any other Cross Tab reports.
- 2. Enter the mandatory prompts and optional prompts (if needed) and run the report.

5. Choose the context menu option 'Assign Data' from the Document Structure and Filters side bar to add a new data element (Position County) to the report.

6. Click on the + sign next the last element in the Rows.

7. Pick Employee Group from the dropdown and click OK.

9. Refreshing the report will also result in the same.

Conclusion:

This is a known issue and it requires manual reformatting to get the report back on proper format when the data elements are added thru Assign Data context menu.
