

ESTIMATE LONGEVITY ELIGIBILITY/LENGTH OF SERVICE

REPORT DESCRIPTION B0064 | WEB INTELLIGENCE

BOBJ

REPORT DESCRIPTION:

This report provides a list of employees who have achieved at least 10 years of creditable service and are eligible to receive a longevity payment within 12 months of the date the report is executed. The Office of State Human resources longevity policy states that full-time and part-time (20 hours or more) permanent, probationary, trainee and time-limited employees are eligible for longevity pay.

REPORT LOCATION:

PA: Longevity & Retirement

REPORT USES:

This report can be used to determine the estimated longevity for eligible employees within an org unit for a 12-month period, rather than performing manual calculations. The amount of estimated longevity is calculated by multiplying the employee's salary by the longevity percentage rate based on the employee's length of service as of the date the report is executed. The percentage rate increases as the employee completes 10, 15, 20, and 25 years of service.

This report can be used for budgeting, to estimate and plan salary and longevity payments for a 12-month period for a specified org unit(s).

How to generate this report

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the OSC website at <https://www.osc.nc.gov/documents/files/web-intelligence-prompts>.

The Mandatory prompts for this report are:

- Organizational Unit
- Calendar Month/Year (Single Value, Mandatory)

This report can also be further limited by utilizing the Optional prompts to further limiting the amount of data that retrieved into the body of the report. Optional prompts are indicated as option in parentheses beside the prompt.

The Optional prompts are:

- Personnel Area(s)
- Employee(s) PersNo.

The screenshot displays a web interface for generating a report. At the top, there is a 'Prompts' dropdown menu. Below it, a search bar is visible. The main area is divided into two columns. The left column lists prompts: 'Organizational Unit' (with a warning icon and 'Please select at least one value'), 'Calendar Month/Year (Single Value, Mandatory)' (with a warning icon and 'Please select at least one value'), 'Personnel Area(s) - (Optional)' (with '(All values)' below it), and 'Employee(s) PersNo. - (Optional)' (with '(All values)' below it). The right column shows the 'Organizational Unit' prompt selected, with a search bar and an information icon. Below the search bar, a message states: 'To see the content of the list, click the refresh values button.' At the bottom of the interface, there is a dark bar with 'Mandatory (2)' and 'Reset All' on the left, and 'Run' and 'Cancel' buttons on the right.

Special Report Considerations/Features

- Temporary employees are excluded by default, but this can be changed.
- Report only pulls active employees.
- The creditable state service comes from the NC Department of the State Treasurer’s Orbit system and is updated monthly.
- The report displays a column for each month projected out for 12 months from the date the report is requested. The longevity amount for each employee will display in the column for the month in which the longevity is due to be paid.
- This report can be run for the current month, or as of a previous month. Future dated months are not supported. If you attempt to run the report for a future month, a message will display, “No data to retrieve in Query 1”.
- When the report is run for the current month, the Projected Length of Service for each employee includes the accrual for the current month, regardless of whether or not the employee has received the accrual in ERP. In this case, the Projected Length of Service is calculated by obtaining the employee’s length of service from the previous month, and then adding 1 to this value to represent the current month accrual.
- When the report is run for a previous month, the Projected Length of Service reflects the length of service accrued in ERP as of the end of the calendar month/year selected.
- To change the sorting for the desired column
 - Data is sorted by Personnel Area by default. (This can be changed as needed).
 - Make sure the “desired column” is selected.
 - Right click on the desired column.
 - Select Data.
 - Select Remove Sort.
