**How to generate this report**

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found on the OSC website at <https://www.osc.nc.gov/documents/files/crystal-prompts>.

The Mandatory prompts for this report are:

- Calendar Month/Year (Single Value, Mandatory)
- Organizational Unit

This report can also be further limited by utilizing the Optional prompts to further limiting the amount of data that retrieved into the body of the report. Optional prompts are indicated as optional in parentheses beside the prompt.

The Optional prompts are:

- Personnel Area(s) - (Optional)
- Employee(s) PersNo. - (Optional)

**Special Report Considerations/Features**

- Only active employees are selected.
- Temporary employees are excluded.
- When the report is run for current month, the Estimated Months of Service includes the accrual for the current month regardless of whether or not the employee has received the accrual in ERP.
- The base for Estimated Months of Service is evaluated by obtaining the employee's length of service (LOS) from the previous month and then adding 1 to this value to represent the current month accrual.
- The Estimated Months of Service is then adjusted if the selected input month is not the same as current month.

Example 1: Input month is current month (Nov2015)

- > Mickey's LOS for the previous month (Oct2015) is 356. We then add 1 to this value to represent the current month accrual, making the Estimated Months of Service 357.
- > Since the selected input month is the same as current month, no additional adjustments are necessary. Estimating from Nov2015, Mickey is eligible for the 30-yr Service Award in 3 months.

Example 2: Input month is 2 months back (Sep2015)

- > Current month is Nov2015. Mickey's LOS for the previous month (Oct2015) is 356. We then add 1 to this value to represent the current month accrual, making the Estimated Months of Service 357.
- > The selected input month is Sep2015 so the Estimated Months of Service would be adjusted by 2 months to reflect 355. Estimating from Sep2015, Mickey is eligible for the 30-yr Service Award in 5 months.
