How to generate this report

This report is generated after selecting values for the mandatory prompts. All mandatory prompts must have values selected before the Run Icon can be used to generate the report. Mandatory prompts can be identified as mandatory by the exclamation mark inside of the yellow-orange triangle, the square with the checkmark, or the display of (Mandatory). Detailed instructions for interaction with each prompt can be found at <https://www.osc.nc.gov/documents/files/web-intelligence-prompts>.

The Mandatory prompts for this report are:

- Organizational Unit
- Calendar Month/Year (Single Value, Mandatory)
- Plan Type(s) (Mandatory)

NOTE: Although other historical months may appear when you click ‘Refresh Values,’ data for this report has been restricted to the previous three years and current year. Selecting a month outside this restriction will render no data.

This report can also be further limited by utilizing the Optional prompts to further limiting the amount of data that retrieved into the body of the report. Optional prompts are indicated as optional in parentheses beside the prompt.

The Optional prompts are:

- Plan(s) - (Optional)
- Employee(s) PersNo. - (Optional)

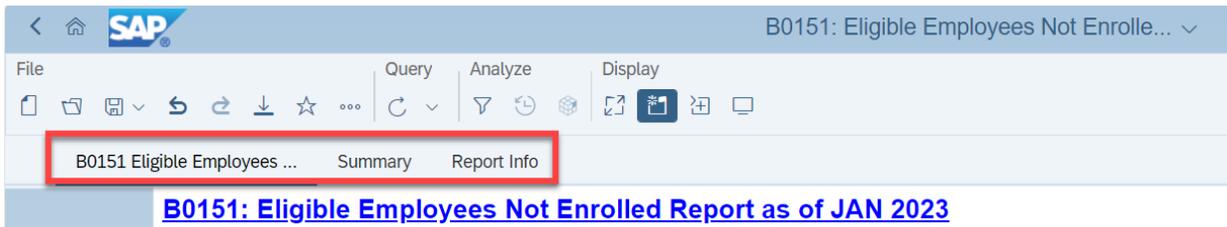

NOTE: Since the system has a large number of employees, using broad wildcard searches can be very slow and may result in an error if the search exceeds the system limit. If the employee number is not known and a name search must be done, narrow down the search by using the wildcard with specific text strings when looking for an employee by name such as:

Jane*Doe*
*Doe

If the employee number is known, it is best to use the manual entry field in Employee(s) PersNo. - (Optional) to enter the selection.

Special Report Considerations/Features

- Although any single month can be selected at runtime, data is restricted to the previous three years through current year. Selecting any month outside this restriction will render no data.
- Only active employees are included in this report.
- No Benefits (NOB) in 1st Program Grouping is excluded from this report.
- Plan Category E (Miscellaneous Plan) is excluded from this report.
- Only Active Plans are included in this report. (Please check the list of Active Plans at the bottom of the document)
- A Default Filter is applied to the Report in both Reporting Tabs to display only employees who are eligible for specified benefit plans but not enrolled.
- **Please do not change the default Report Filter as the change will affect the Report Results.**

To check the default filter on the first report tab:

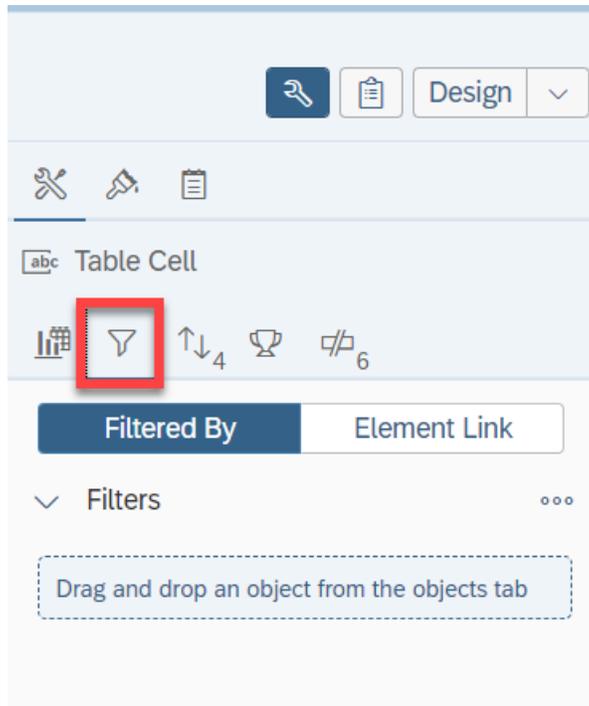

1. Choose the Design Mode.

2. Click on the tool to show the data/format panel.

3. Select the Funnel icon

To change the sort

1. Click the “Display feeding panel” icon

2. Select ascending or descending sort order as needed.

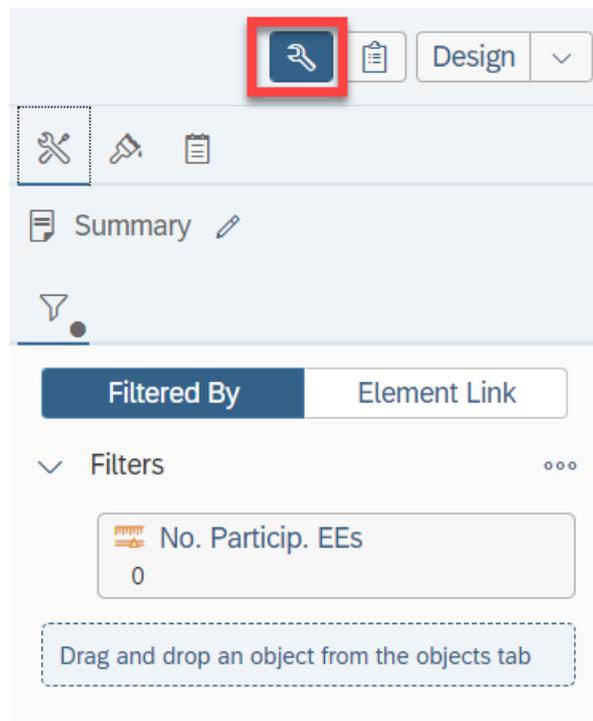

To check the default filter on the Summary report tab:

1. Choose the Design Mode.

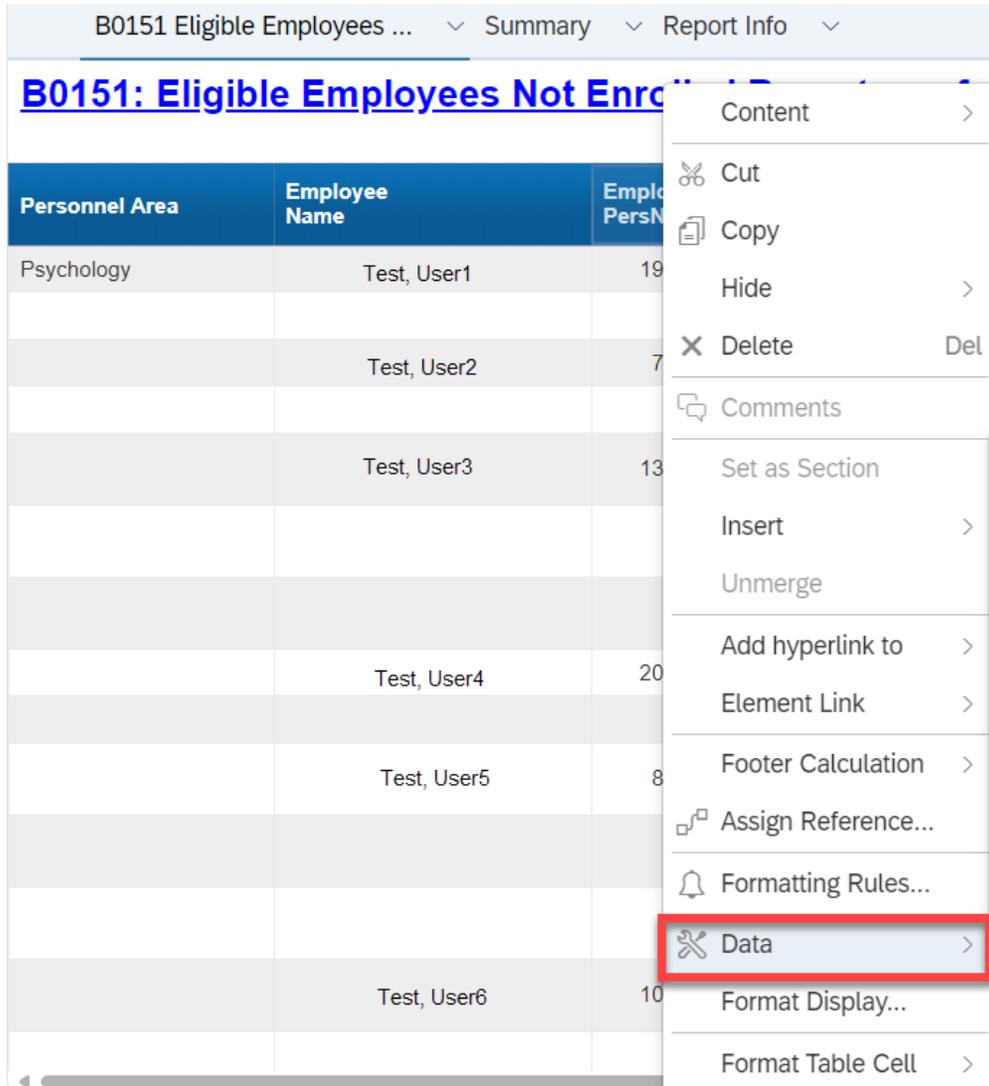

2. Click on the tool to show the data/format panel.

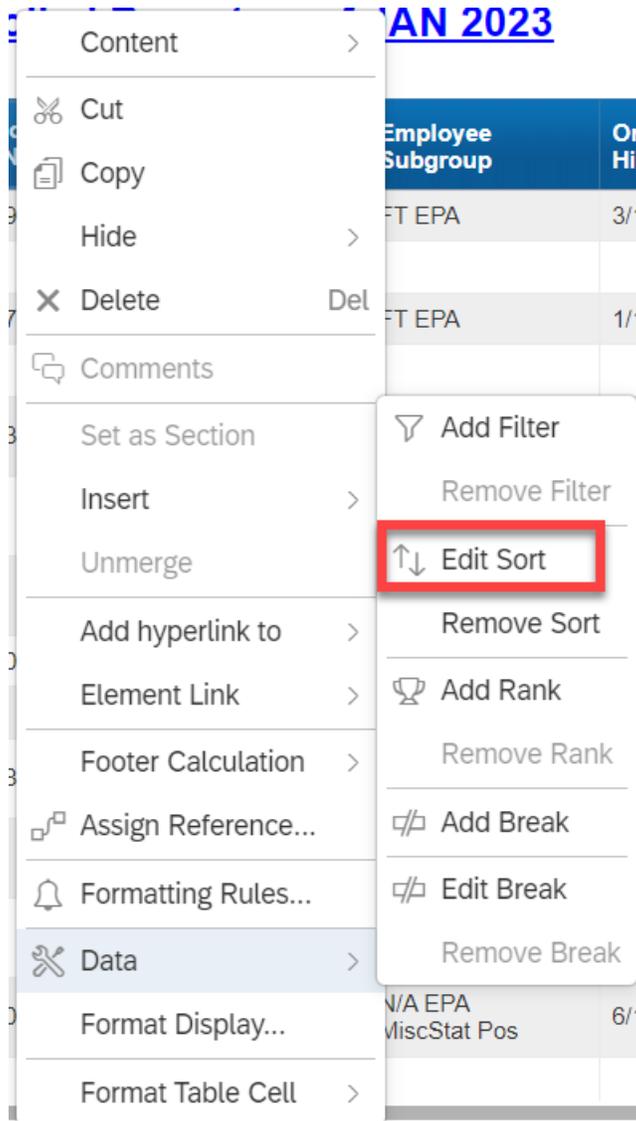

To change the sorting for the desired column:

By default, data is sorted in Ascending Order by Personnel Area, Employee Name, Employee PersNo., and Plan. (This can be changed as needed).

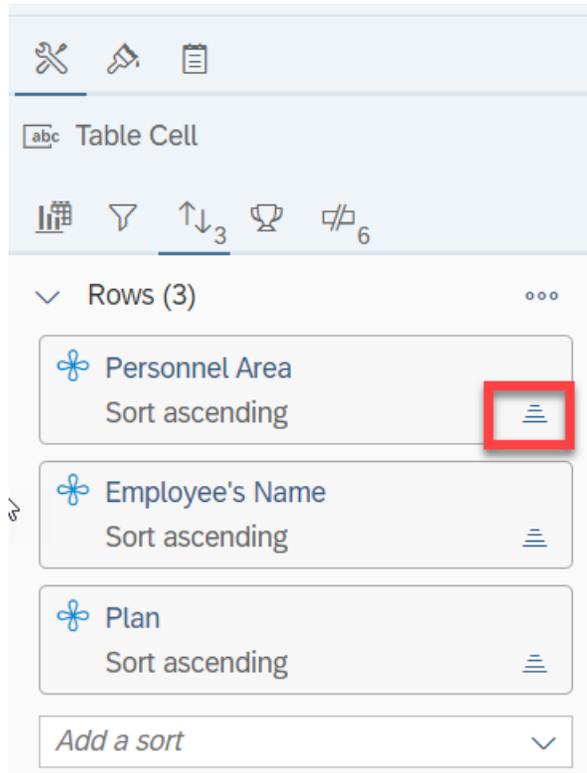

1. Right click on “any column” that has break applied.
2. Click “Data”

3. Click “Edit Sort”.

4. Select ascending or descending sort order as needed.

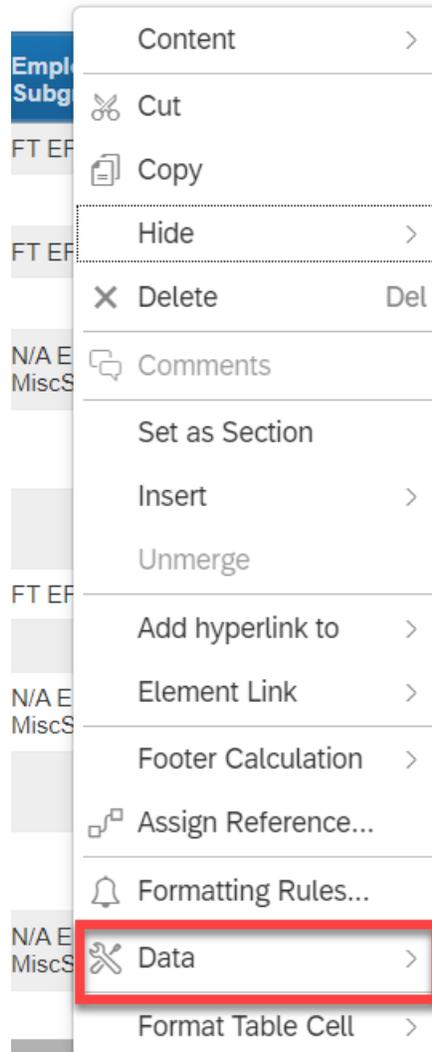

To change the breaks in the Report while exporting the data to Excel:

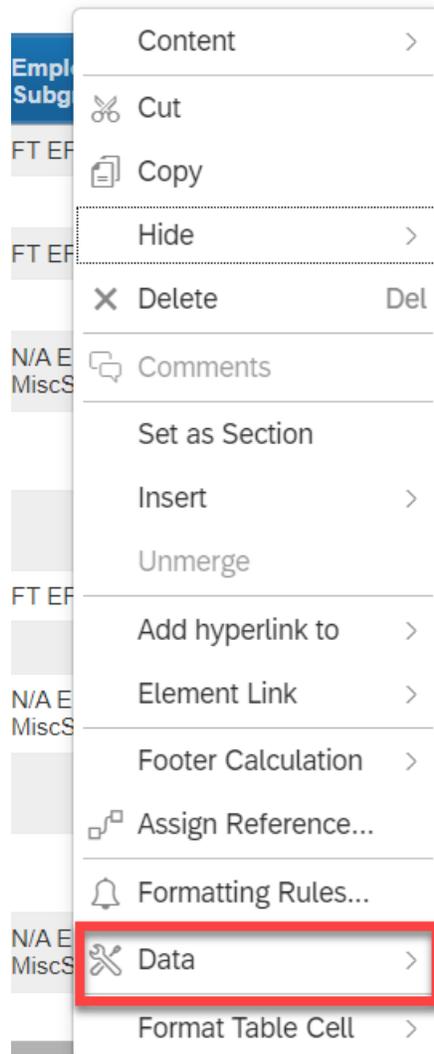

By default, breaks are applied in the report on Personnel Area, Employee Name, Employee PersNo., Employee Group, Employee Subgroup, and Original Hire Date to avoid repeated values in the Column.

If the repeated values for columns are needed in Excel, remove breaks in the report before exporting the data to Excel.

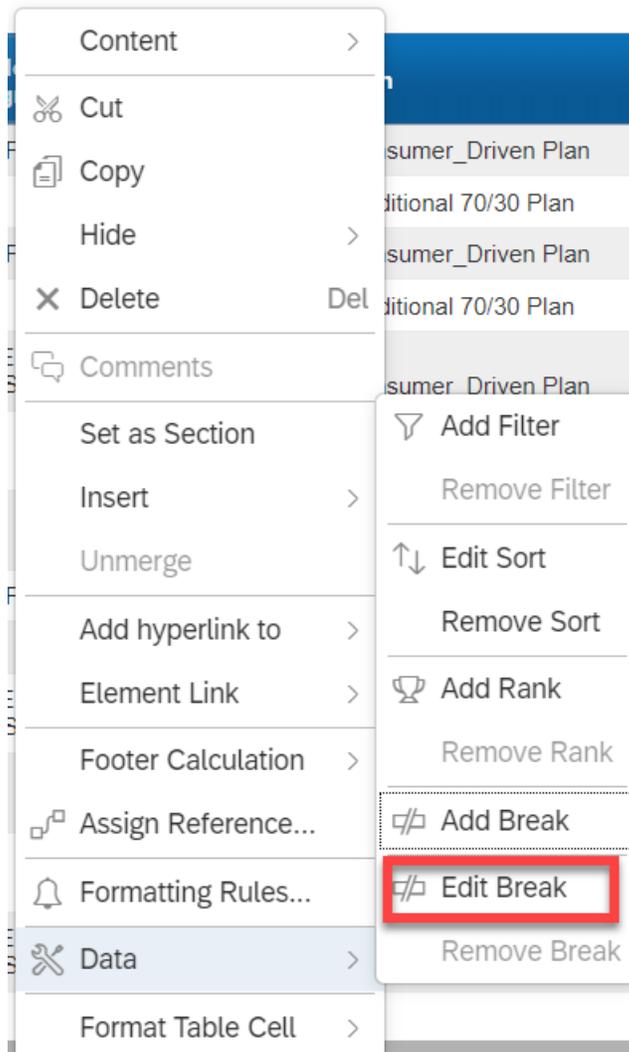

1. Right Click on the “desired column”.

2. Click the Break “Data”.

3. Click “Edit Break”

- The repeated values are now reported in all columns and can be export to Excel in the same format.

The screenshot shows a report viewer interface with a toolbar at the top containing options like File, Properties, Report Elements, Formatting, Data Access, Analysis, Page Setup, Filters, Data Tracking, Display, Conditional, Interact, and Functions. Below the toolbar is a formula bar with the text "=[Employee's Name]". The main content area displays a report titled "B0151: Eligible Employees Not Enrolled Report as of APR 2016". Below the title is a table with the following data:
